SMART

The lighting system for

EASY TO CONTROL

**RGB COLOUR CONTROL BY REMOTE CONTROL
OR VIA THE SMARTPHONE APP**

- With many additional functions – for lighting to match your mood
- Programming of timer functions
- Can be connected to sound and Smart Home systems, e.g. Alexa, Siri, ...

EXPANDABLE

**"PLUS EXPANSION" WITH
3 M CONNECTION CABLE TO EACH LIGHT**

- Very easy and flexible application
- No additional accessory cables required
- Fool-proof installation

LIGHTS

NEW!

ponds, pools and gardens

PROFESSIONAL AND SAFE

PROFESSIONAL AND SAFE ABOVE AND UNDERWATER

- Lights, sensors, distributors, transformers,...are IP68 tested = waterproof!
- High-quality H05RN-F rubber cables
- 12V low-voltage – can be used on and in water
(=> 230V lights must be kept 2m away from the edge of the pond)

UNIVERSAL

SPOTLIGHTS WITH 4 ASSEMBLY OPTIONS

- Pond feet for good stability underwater
- Garden feet for good stability above water
- Wall/floor plates for screwing in
- Pump mounting clip for water fixtures

Selection of lights and suitable transformers

STEP 1 - Choose the light

- 3x  = 3W
- 2x  = 8W
- 1x  = 4W

all = 15 W

STEP 2 - Select the transformer
For the lights chosen above, you will need a transformer with at least 15 watts

L512-00 with max. 16W is sufficient

TIP: Selection of the correct transformers!

Add the wattage of your chosen lights and choose the transformer with the next highest wattage. Compatible with your lights – you can find the right transformers on page 75.

TYPE	Watt	Depiction
L511-00	up to 6 Watt	
L512-00	up to 16 Watt	
L513-00	up to 30 Watt	
L514-00	up to 60 Watt	
L515-00	up to 105 Watt	

4 assembly options

- Pond feet for good stability underwater
- Garden feet for good stability above water
- Wall/floor plates for screwing in
- Pump mounting clip for water fixtures

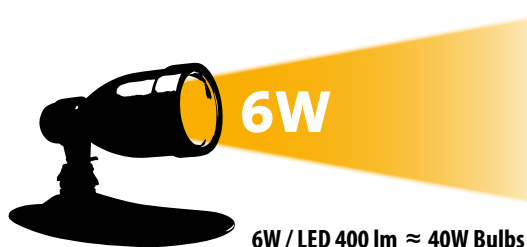

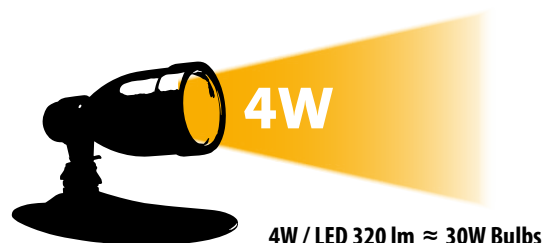

The system that can be controlled by an app

Lights for the edges of ponds and pools **NEW!**

SMART LIGHT - the lighting system for ponds, pools and gardens

There is a particular magic in the garden at twilight, when ponds, pools and favourite corners are illuminated. Thanks to the new HEISSNER Smart Lights, a complete networking of lights is possible.

The entire lighting concept, regardless of whether it is over or under water, can be easily connected thanks to the 3m connection cable that each light has.

The smart lighting system can be easily controlled via an app.

A lighting system with endless possibilities – whether it be above or below water, pond and pool lights, integrated bottom lights, single or multi-colour – and all easy to control via the app or by remote control. Intelligent ambience!!

- High-quality metal housing or shatter-proof polypropylene in a solid construction
- Spotlights with 4 assembly options
- Lights with a 3m connection and “PLUS” expansion
- Stable H05RN-F rubber cables
- Underwater lights, sensors, distributors, plugs, transformers,... are IP68 tested = waterproof!
- 12V low-voltage – can be used on and in water
- All lights either have warm white LED's (2800k) or are colour-changing (RGB)

 **EU energy efficiency classes**

The EU energy label provides information on the energy efficiency class of the lamp, ie the ratio of light output to power consumption, as well as other properties of the product. To achieve energy-saving LED lamps have an energy efficiency class from A to A ++, efficient halogen lamps are classified in categories B to C. HEISSNER used in its luminous articles exclusively modern LED lighting energy efficiency class:

Garden Fabrics & Liners

Durable, tear-resistant, strong!

Ground Cover Fleece

Weed Stop

Ideal for slopes, hedges, pond banks, paths, under decking, sand boxes, ...

- Strong weed fleece made out of polypropylene for long-lasting protection against weeds
- Permeable to air, water and nutrients
- The ground and plant roots are able to breath, while weeds are inhibited
- Covered keeps it up to 25 years

Ground Cover Fleece

Root Stop

Ideal for slopes, hedges, pond banks, paths, under decking, sand boxes, ...

- Extra strong weed fleece made out of polypropylene for long-lasting protection against even stubborn weeds such as couch grass, horsetail, field bindweed and bishop's weed
- Also provides sufficient protection against roots
- Permeable to air, water and nutrients

Subsoil Fabric Sheeting

Ideally weed protection in vegetable beds, with paths, patios and rock gardens

- Longitudinal green lines at a distance of 20 cm make it easier to position plants in a precise line
- Protects the subsoil against direct sunlight
- Prevents the subsoil drying out too quickly, **saves lots of water**
- Destroys weeds by depriving them of light

Fabric Tarpaulins

Ideal as a cover for wood, sand pit, barbecue, garden furniture, motorcycle, ...

- Left and right edge reinforced with eyelets at a distance of 50cm for easy fixing
- Universally deployable, reusable again and again even over many years
- Extremely tear resistant
- UV resistant

Privacy Screen Fabric

5 Ideal for privacy, sun protection and wind breaker for garden fences and balconies

- Non-transparent
- Provides shade
- Reduces UV radiation by up to 85%
- Also ideal for providing wind protection
- Seamed edges on both sides
- With eyelets at a distance of 50 cm for fixing in place

Mesh Sheeting

6 Ideal for greenhouses, cloches, cold frames and planting boxes

- Particularly stable and tear resistant
- Transparent sheeting (highly translucent) reinforced with a stable mesh fabric
- Reinforced border for easy installation using nails (does not tear off)
- Resistant to frost and hail
- Waterproof and washable

Bird Netting

7 Ideal protection from bird damage - protects hedges, shrubs and fruit trees

- Garden ponds: keeps off leaves and protects pond life from predators (herons, etc.)
- Keeps off leaves and birds
- Small mesh size: 13 x 13 mm with uniform mesh structure
- Weatherproof
- Multifunctional
